# Circularity & recycling

## Italgraniti Group embraces reuse, reduction, and circularity for sustainable growth.

Il Gruppo si impegna, nell'ottica della riduzione del cambiamento climatico, a sviluppare prodotti e processi che minimizzino l'impatto ambientale. L'impegno si concretizza nell'adozione di pratiche responsabili lungo la catena di approvvigionamento, nell'impiego di materiali riciclabili e nell'utilizzo di tecnologie in grado di ridurre le emissioni di carbonio e gli effetti negativi sull'ecosistema. La gestione delle materie prime rappresenta un elemento fondamentale di questo approccio: i materiali impiegati sono naturali, ampiamente disponibili sulla superficie del pianeta, non costituiscono fonte di tensioni geopolitiche e provengono da cave autorizzate, soggette a piani di riqualificazione ambientale al termine delle attività estrattive.

The Group is committed to developing products and processes that minimize environmental impact with a view to reducing climate change. This commitment is reflected in the adoption of responsible practices throughout the supply chain, the use of recyclable materials, and the use of technologies that reduce carbon emissions and negative effects on the ecosystem. The management of raw materials is a fundamental part of this approach: the materials used are natural, widely available on the planet's surface, do not constitute a source of geopolitical tension, and come from authorized quarries that are subject to environmental redevelopment plans at the end of their mining activities.

Im Hinblick auf die Eindämmung des Klimawandels verpflichtet sich die Gruppe, Produkte und Prozesse zu entwickeln, die die Auswirkungen auf die Umwelt minimieren. Dieses Engagement konkretisiert sich in der Einführung verantwortungsbewusster Praktiken entlang der gesamten Lieferkette, in der Verwendung recycelbarer Materialien und im Einsatz von Technologien, die den CO<sub>2</sub>-Ausstoß sowie die negativen Auswirkungen auf das Ökosystem reduzieren. Die Verwaltung der Rohstoffe ist ein wesentlicher Bestandteil dieses Ansatzes: Die verwendeten Materialien sind natürlicher Herkunft, auf der Erde reichlich vorhanden, verursachen keine geopolitischen Spannungen und stammen aus zugelassenen Steinbrüchen, die nach Abschluss der Abbauarbeiten einer Umweltsanierung unterzogen werden.

Dans le but de réduire le changement climatique, le Groupe s'engage à développer des produits et des processus qui minimisent l'impact environnemental. Cet engagement se traduit par l'adoption de pratiques responsables tout au long de la chaîne d'approvisionnement, l'utilisation de matériaux recyclables et le recours à des technologies capables de réduire les émissions de carbone et les effets négatifs sur l'écosystème. La gestion des matières premières est un élément fondamental de cette approche : les matériaux utilisés sont naturels, largement disponibles à la surface de la planète, ne constituent pas une source de tensions géopolitiques et proviennent de carrières autorisées, soumises à des plans de réhabilitation environnementale à la fin des activités d'extraction.

Dalle soluzioni dedicate alle pavimentazioni sopraelevate agli accessori per davanzali e muretti, OPEN ha la risposta per ogni esigenza architettonica. La cura di ogni particolare e la ricerca della precisione materica consegnano al landscape design rigore assoluto.

From dedicated solutions to floating floors and accessories for windowsills and walls, OPEN has an answer for every architectonic need. Attention to every detail and the pursuit of material precision brings discipline to landscape design.

Von Lösungen für hochgestockte Bodenbeläge bis hin zu Zubehör für Fensterbänke und Mauerwerke hat OPEN die richtige Antwort auf jede architektonische Anforderung. Jedes kleinste Detail und die Suche nach Materialpräzision verleihen der Städteplanung absolute Strenge.

OPEN répond à toutes les exigences architecturales, que ce soit par des solutions spécialement mises au point pour des sols surélevés ou sous forme d'accessoires pour rebords de fenêtres et murets. Le soin apporté à chaque détail et la précision de la ressemblance avec les matériaux d'inspiration offrent à l'aménagement paysager une rigueur absolue.

Complete range of special trims

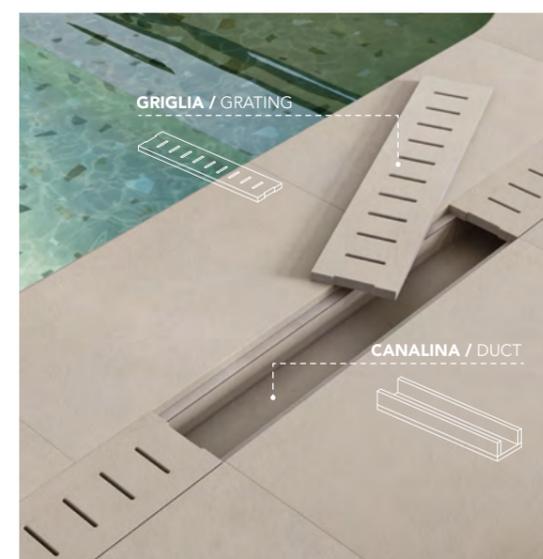

# Complete range of special trims

Il progetto OPEN applica alle scale gli stessi principi di efficienza, funzionalità e bellezza riservati alle superfici planari. Che siano rampe autoportanti o sospese, i pezzi speciali con differenti profili e layout sono in grado di accogliere le esigenze creative di architetti e paesaggisti.

With the OPEN project, the same principles of efficiency, functionality and beauty reserved for flat surfaces are also applied to stairs. Whether self-supporting ramps or suspended stairs, special pieces with different profiles and layouts are able to meet the creative needs of architects and landscape designers.

Mit dem Projekt OPEN gelten für Treppenprojekte die gleichen Prinzipien in Funktion von Effizienz, Funktionalität und Ästhetik wie für Flächen. Bei freitragenden oder schwebend gelagerten Rampen erfüllen Formteile mit unterschiedlichen Profilen und Layouts die kreativen Wünsche von Architekten und Städteplanern.

Le projet OPEN réserve aux escaliers les mêmes principes d'efficacité, de fonctionnalité et d'esthétique qu'aux surfaces planes. Qu'il s'agisse de rampes autoportantes ou suspendues, les pièces spéciales en différents profils et formes répondent à chaque exigence ou création des architectes et maîtres paysagers.
